Introduction and Condition of Sale

The prices in this Catalog cancel all previous prices.

Our plants as listed are all strong field grown, except for some which we are growing in pots owing to root conditions. These plants being a better success from pots than from the field.

We do not ship plants we would not like to receive ourselves.

Our quality plants are the lowest priced, by comparison.

They are guaranteed to be true to name except those usually raised from seed of which we buy the best and which generally come true.

OUR TERMS ARE:

30 days net on accounts of approved credit.

2% discount in 10 days.

6% interest will be charged on all accounts past due.

Orders from unknown parties must be accompanied with cash or satisfactory references.

We do not charge for packing.

Less than 3 plants will be 10% of dozen rate each.

3 plants are shipped at the dozen rate.

25 plants are shipped at the 100 rate.

Orders to be sent via Parcel Post must be accompanied with sufficient money for postage, otherwise a C. O. D. will be made out for the deficiency. If no postage is sent, goods will be shipped via Express.

Prices for more than 100 of one variety will be gladly quoted upon request.

LOCATION

Our Nursery is located on the West side of the Delesa Drive (N. J. Route 47), between Clayton and Glassboro.

Worthy Novelty Perennials

We continuously experiment with new varieties of perennials, and have selected the following as the most outstanding. Some of these are being offered for the first time at popular prices, while others are the most worthy of recent introductions. We strongly recommend that you make a planting of these special items. You will find them very valuable additions to your present assortment of perennials.

Pygmy Pyrethrums

We are introducing this spring for the first time a new strain of Pyrethrums which do not grow any higher than 6 inches and are so covered with blooms, especially the second year, that they resemble large red and yellow cushions.

They are a dwarf form of the well known Pyrethrum Roseum and have the same habit of growth and when not in bloom are hard to distinguish from the parent plant, but when in bloom they sell on sight. Blooming time is late May to mid June.

	Doz.	100
RED PYGMY	\$4.00	\$25.00

CHRYSANTHEMUM

"GOOD MORNING"

"Good Morning," the 1937 yellow root-sport of "Astrid," possesses all the finest qualities of that well known early hardy chrysanthemum.

Rooted cuttings in May develop into strong, vigorous plants conspicuous among all other chrysanthemums for their beautiful dark green blight and disease-resistant foliage.

The plants with strong branches require no disbudding, and are very floriferous. Bronzy buds unfold by mid-September into a light cream. Flowers in good condition were picked in early November after frosts and heavy snow in October.

Disbudded, "Good Morning" may be used for specimen flowers, which keep more than two weeks. The plants are excellent for landscape use, or may be potted, and can be had in bloom in the house until after Thanksgiving Day. Removed after heavy frost to the greenhouse, "Good Morning" may be forced into bloom for Mother's Day. In the open the plants require no winter protection, and are abundant propagators.

DIANTHUS

Doz. 100

***PLUMARIUS LITTLE GEM.** A delightful new addition to the Dianthus family, of our own origination, being only 3 inches in height, and having deep rose pink flowers with maroon centers, which are 1½ inches in diameter, and bloom from May until killed by a heavy frost, it will stand the dry weather very

**Dianthus Plumarius Little Gem***(Photographed in one-quart berry box)*

well and in the dry summer of 1939, there was not a day that there was not a flower in bloom, and the succeeding wet weather seemed just as well to its liking as long as it does not get its feet wet. The flowers, which come about three to a spike, are just protruding above the foliage. Excellent for edging and the rock garden. 2.00 12.00

ARTEMISIA

***SCHMIDTIANA NANA.** Lovely feather foliage in sun-glinting silver, dense and as though it were moss, gathered in low rounding mounds six inches high by sixteen across. A charming species. 2.00 12.00

Varieties marked (*) recommended for Rock Gardens

SPECIAL NOTICE TO OUR CUSTOMERS

Taxes and increased costs, owing to the war, are going to have a bearing on prices. We will try to maintain the prices listed in this list, but we reserve the right, to change any of the prices, as may be necessary.

Should a Federal Sales Tax go into effect. Remittance must be increased by the additional amount.

A special handling Charge of 25¢
will be placed on orders less than
\$5.00.

Other Perennials

ACHILLEA

Doz. 100

*TOMENTOSA. Neat cushions of bright green foliage and heads of yellow flowers. 8 inches. May-June. 1.50 10.00

*TOMENTOSA SULPHUREA. A beautiful new form of the well-known Achillea. Tomentosa, but with pale yellow flowers which are produced in a much greater quantity during May and June. 8 inches. 1.50 10.00

ALLIUM

*FLAVUM. Flower-bells of deep glossy yellow, buff-tawny in reverse, are carried in loosely spraying informal clusters. Exceedingly floriferous, over a long season. Good in rock garden, or for edgings or bedding. 1.50 10.00

Varieties marked (†) recommended for Cutting

ALLIUM (continued)

Doz. 100

*PULCHELLUM. More or less it is an *Allium flavum major* that has been dipped in raspberry jam. It's a highly visible, and highly attractive tone of raspberry purple. Vivid. 1.50 10.00

TANGUTICUM (*Lavender Globe Lily*). The flowers are fluffy stars, packed closely, hundreds of them, into great globe clusters that top 2-ft. stems. The blossoms are a pure cool lavender, a clean, clear shade. A sound, hardy and enduring perennial, making big clumps that are fountains of showy blooms in late summer and early autumns, giving them magnificent effects. 2.50 15.00

ALYSSUM

*SAXATILE COMPACTUM. Basket of Gold. One of the most popular of spring flowering plants. Masses of yellow flowers. 9 inches. April-May. 1.50 10.00

*SAXATILE CITRINUM. A sulphur colored variety of the above. 2.00 12.00

ANCHUSA

*MYOSOTIDIFLORA. Masses of bright blue, forget-me-not flowers. 1 ft. April-May. 1.50 10.00

ANEMONE

JAPONICA, (Japanese Windflower). These beautiful flowers are among the most important hardy plants. They begin blooming in August and continue until cut down by hard frost.

ALBA. Purest single white with yellow center.

QUEEN CHARLOTTE. Abundant semi-double flowers, broad and perfectly formed; colored, La France pink; height, two to three feet.

RUBRA. Beautiful rosy-red with bright yellow stamens.

SEPTEMBER CHARM. Silvery rose. Very early and free flowering.

WHIRLWIND. An excellent sort producing beautiful double white flowers. Pot Plants in Spring only. 1.50 10.00

*PULSATILLA. Large, bluish-purple cup shaped flowers. 1 ft. April-May .. 1.50 10.00

Varieties marked (*) recommended for Rock Gardens

ANTHEMIS

Doz. 100

†MOONLIGHT. A much improved form with good sized single yellow flowers during the entire summer. Succeeds in the poorest soil and is an excellent cut flower. 2.00 12.00

AQUILEGIA (Columbine)

CHRYSANTHA. Soft yellow flowers. 3 ft. May-June. 1.50 10.00

COERULA. Blue and white flowers with long spurs, 2 ft. May-June. 1.50 10.00

CRIMSON STAR. This is an entirely new Aquilegia. It is by far the most striking crimson with white corolla. Because of its bright color, we believe that our customers will find this variety of great value either in border plantings or for cut flower use. 2.50 15.00

MRS. SCOTT ELLIOTT'S STRAIN. This is probably the best strain of long spurred hybrids. Wide range of colors, 2-3 ft. May-June. 1.50 10.00

ARABIS (Rock Cress)

*ALPINA. One of the earliest Spring flowering plant. Very suitable for the rockery or border, with its masses of pure white flowers. 1 ft. April-May. .. 1.50 10.00

*ALPINA, FL. PL. A double form of the above. 2.00 12.00

ARMERIA

BEE'S RUBY. Stout erect stems with large heads of brilliant Ruby-red flowers, 15 in., June-August. 3.00 20.00

*CEPHALOTES RUBRA. In the assortment of dwarf an semi-dwarf varieties this by far is the most outstanding. The flowers are of good size and the color is a striking red. For border there is nothing that will make such a bright showing. At road side sale grounds, these plants when in flower, will sell themselves. 1.50 10.00

*MARITIMA LAUCHEANA. Compact tufts of grass-like foliage entirely covered in May and June with globular heads of pink flowers. 6 inches. 1.50 10.00

ARTEMISIA

†SILVER KING. Silvery leaves on 3-foot stems. Useful for cutting. 1.50 10.00

ASCLEPIAS

TUBEROSA. Clusters of bright orange red flowers. 2-3 ft. July-Sept. 1.50 10.00

Varieties marked (†) recommended for Cutting

ASTER—Michaelmas Daisy

Doz. 100

*ALPINUS. May. Blue. 10 inches. .. 1.50 10.00

ALPINUS ALBUS. White. 1.50 10.00

†BEECHWOOD CHALLENGER. Erect grower, of medium height, producing brilliant crimson-red flowers. We highly recommend this variety for florist cutting or landscape use. 2.50 15.00

†FRIKARTI (*Wonder of Staffa*). We consider this the best of the late summer and early fall flowering varieties. It is attractive in its neat upright free-branching habit of growth attaining a height of about 30 inches. The large, well-formed blooms are produced in great profusion from the middle of August until October. They are a lovely lavender-blue color. 3.00 20.00

†N. A. HARRINGTON'S PINK. All who see this lovely variety, are enchanted with its charm. A real pink that will be a standard for a long time to come. ... 2.50 15.00

BUDLEIA

†CHARMING. Develops into a beautiful bushy plant, growing to a height of 5 to 6 ft., and almost the same in spread. Making a very striking plant in any landscape, flowering from the middle of June until frost. The flowers are a clear Lavender pink, an entirely new color, never before seen in Budleias. .. 3.00 20.00

CAMPANULA

†MEDIUM (*Canterbury Bell*). Blue white, pink; mixed. June 1.50 10.00

†CALYCANTHEMA (*Cup & Saucer*). Blue, pink and white; mixed. June 1.50 10.00

CHEIRANTHUS (Siberian Wallflower)

*†ALLIONI. Dazzling orange flowers from early Spring to late Fall. 1 ft. (Biennial). 1.50 10.00

CHRYSANTHEMUM

Doz. 100

†We have found it necessary to add these valuable plants to our collection, and after some consideration we decided to use only the best and the newest varieties, and to keep on adding only those which merit their places in our collection.

CUSHION MUMS

APPLEBLOSSOM CUSHION. Pale pink.

DEEP PINK CUSHION. New deep pink.

KING CUSHION. Bronze. turning yellow with age.

LEMON CUSHION. Lemon colored.

PINK CUSHION. The well-known Azaleamum.

QUEEN CUSHION. White.

RED CUSHION. New early red.

ROSE CUSHION. New rose colored.

YELLOW CUSHION. Pure golden yellow, very brilliant.

NEW SPOON MUMS

Here is something new in Chrysanthemums. The long tubular petals flatten out at the ends so that each resembles a spoon. These splendid new varieties of 1941 greatly widen the color range of this artistic new type of hardy Chrysanthemum which may be relied upon to give a profusion of flowers when the season comes to a close.

GOLDEN SPOON. Bright golden yellow with Apricot sheen.

JASPER SPOON. Long tubes of straw yellow with small spoons of brilliant jasper red at the tips.

PINK SPOON.

ORCHID SPOON. Light pinkish lilac, almost double and very free flowering.

RED SPOON.

ROSE SPOON. Luminous old rose. The tubes are set in the form of a bowl. Vigorous and free blooming.

CHRYSANTHEMUMS (continued)

Doz. 100

WHITE SPOON.

YELLOW SPOON.

APRICOT. Apricot color, well formed, full flowers, measuring 2½" across, growing 2½ feet tall. Good cut flower sort.

ASTRID. Single pink.

BARBARA CUMMING. Clear yellow in color, shading to orange-bronze toward the center.

BRONZE DOTY. Glowing bronze.

DURBIN. Large salmon pink, suffused with crimson, semi-double flowers, daisy type. Very attractive colors. Blooms measure 2½" across.

JULIA. Gorgeous, large, delicate pink, full flower over 3" across. Petals are long, slightly straggly, has good lasting cut flower qualities. Height 2½ feet. We believe this variety will be popular for its beauty as well as an early sort.

LOVELIGHT. Large pale pink duplex flowers.

MARY YODATH. A most striking color of Vivid Rose with a deep gold center, a pleasing combination. Dwarf and bushy habit. Vigorous grower.

MRS. S. P. ROTAN. Double brilliant golden yellow, shading to deep orange.

PEARL WHITE. Very early white, flowers are small full, irregular, about 1" across, 12" high, bushy.

PINK BOUQUET. Words cannot describe this exquisite and outstanding introduction. The flowers are a delicate pink, slightly edged with cream. The petals are large and wide, firm and well formed. Single type about 2" across, slightly cup-shaped. The growing habit is such that when it is in bloom, it is a well arranged, perfect Pink Bouquet of solid flowers. A real tree forming habit, grows 20" tall, vigorous, sturdy strong stems. Matures September 20. We firmly believe this will prove very valuable and popular, also making an excellent pot plant as well as cut flowers.

All of the above Chrysanthemums are	1.50	10.00
Field grown	2.50	15.00

Varieties marked (*) recommended for Rock Gardens

CHRYSANTHEMUMS (continued)

Doz. 100

PYGMY GOLD. A distinct dwarf Korean pompon type, producing quantities of miniature blossoms slightly over 1" across. The color is a clear yellow, remarkable for its brilliance and intensity. Commencing to flower in early September, it is easily the most colorful early chrysanthemum yet introduced. Unusually so, because it retains its effectiveness right up until the season ends. Grouping in the rock garden or yard border or used for edging, it will prove the delight of the Autumn.

RAPTURE. Double deep orange flowers with a lively suffusion of bright carmine.

RUBY. Ruby pink.

SEQUOIA. Double blooms of a mellow amber.

THE CHIEF. Semi-double, bright scarlet and gold.

VESTA. A plant of medium height and great vigor, literally covered with flowers over 2½" in diameter of a deep golden orange shade, almost a duplex.

YODATH'S PRIDE. A distinct variety and one of the most outstanding introductions. An early orange bronze, the earliest bronze yet on the market. The flowers are perfect in form, color, shape and habit. Measuring 1 3/4" in diameter. The petals are compact and of straight and firm habit, yet it appears to be so tenderly graceful. With us it begins to bloom September 12-15. The height is 15", very bushy, fine foliage and shape. Suitable for edging, rock garden, and a gem for pot plant.

All of the above Chrysanthemums are 1.50 10.00

Field grown 2.50 15.00

*†**MAXIMUM (SHASTA DAISY).** Splendid hardy perennials of easy culture and invaluable for cutting. Plant in good rich loam to bring out their beauty. 2 ft. June-July. 1.50 10.00

†**WHITE SWAN.** Pure white double flowers, on strong, wiry stems about 24 inches in length, in bloom for Memorial Day. 2.00 12.00

● **You Can Depend On Shoreway Plants**

Varieties marked (†) recommended for Cutting

COREOPSIS

Doz. 100

†VERTICILLATA. Fern Coreopsis. Delightful fern-shredded foliage of bright green, but newer growth is roseate buff in delicately blended tonings. Blossoms of brightest pure yellow, no hint of orange. Long in bloom. Strictly a non-spreader. Recommended. 2.00 12.00

DELPHINIUM

†BELLADONNA. Sky-blue flowers from June until frost. 3 ft. 1.50 10.00

†BELLAMOSUM. Similar in habit and growth to the above but having dark blue flowers. 1.50 10.00

†BLACKMORE & LANGDON'S ENGLISH HYBRIDS. This is indeed a wonderful strain. It has a range of colors well divided in the palest of blue shades to the deepest indigo, with a strong run of the most delicate shades of rose; double and single. 1.50 10.00

†GRANDIFLORUM (*Chinese*). Gentian-blue flowers; fine divided foliage. 2 ft. June-August. 1.50 10.00

DIANTHUS

*ALLWOODII ALPINUS. Single and semi-double flowers in varying shades of pink. 4-5 inches. May-June. 1.50 10.00

BEATRIX. A fine hardy garden pink, which is becoming very popular. The flowers are a lovely salmon-pink in color, very fragrant and freely produced in May and June 2.00 12.00

*LITTLE JOE. Deep crimson flowers on 3" stems. Blue spiny foliage. Blooms heavily and continually from spring until killed by heavy frost. 2.50 15.00

MISS AMERICA. A beautiful Scarlet form of the well known Beatrice and Silvermine. 2.50 15.00

†PLUMARIUS FL. PL. A first rate mixture of fragrant, beautifully frilled flowers, varying in color from white to crimson. Single, semi-double and double flowers. May - June. 1.50 10.00

*ROSE CUSHION. Dense Cushion of evergreen bluish foliage, with rose colored flowers in May. 2.00 12.00

*SILVER MINE. This variety is similar in habit of growth to Beatrix, except

Varieties marked (*) recommended for Rock Gardens

DIANTHUS (continued)

Doz. 100

that it produces pure white flowers on 8 to 10" erect stems. The deep green foliage is very attractive during the entire growing season. It is a prolific bloomer. We consider it a very worthy addition to the set of Beatrix and Prince Bismark. Without question it is one of the most striking recent introductions.....

2.50 15.00

DIELYTRA

*EXIMEA. Dainty, fern-like foliage and pendulous lyre shaped flowers of a pleasing shade of pink. 1 ft. May-September.

2.50 15.00

SPECTABILIS (*Bleeding Heart*).

3 to 5 eyes. 2.50 15.00

5 eyes up. 3.00 18.00

DIGITALIS (Foxglove)

†THE SHIRLEY. A new strain of large size. Colors range from white and shell-pink to deep rose. 5 ft. May-June.

1.50 10.00

DORONICUM—Leopard-bane

†CAUCASICUM. Large, bright yellow, daisy-like flowers. One of the most effective early spring-flowering perennials. It is a splendid flower for cutting as it carries well and stands a long time in water. They succeed well anywhere.

2.00 12.00

†CLUSSI. Sulphur yellow, large flowered.

2.00 12.00

†EXCELSUM. A most effective early spring-flowering perennial. Grows 2 feet high and has showy bright yellow blooms.

2.00 12.00

ELSHOLTZIA

†FARQUHARI. Splendid late-blooming border plants with spicy aromatic foliage. In autumn they fill with long and fluffy one-sided bloom-spikes in a most attractive shade of lilac-purple carried candelabra fashion on many branching stems. An excellent cut flower.

1.50 10.00

EUPATORIUM

†COELESTINUM. Masses of blue, ageratum-like flowers. 2 ft. Aug.-Oct.

1.50 10.00

Varieties marked (†) recommended for Cutting

EUPHORBIA

Doz. 100

†COROLLATA. Masses of pure white, flower-like bracts. 2 ft. Aug.Sept. 1.50 10.00

FUNKIA

†UNDULATA VARIEGATA. Creamy white and green variegated leaves. 1.50 10.00

GAILLARDIA

†BURGUNDY. (New). Large, deep red self-colored flowers. 2 ft. June-Sept. 1.50 10.00

†GRANDIFLORA. Flowers range in color from old gold to crimson. 2 ft. June-September. 1.50 10.00

†PORTOLA HYBRIDS. A new strain of large flowering Gaillardia having a color range from reddish bronze to a deep gold. Very satisfactory as a cut flower. 1.50 10.00

†THE DAZZLER. Large, bright golden flowers with red maroon centers. 2 ft. June-September. 1.50 10.00

GERANIUM

*SANGUINEUM. Attractive foliage and bright crimson flowers. All summer. 9 inches. 1.50 10.00

GEUM

*FIRE OPAL. Dazzling orange-scarlet with rich orange sheen. The flowers are often 3 inches across on 2-ft. stems, abundantly produced from May to end of October. Very hardy and strong grower, excellent foliage. Should be in all gardens. 2.50 15.00

†PRINCESS JULIANA. A splendid new hybrid with large double pure orange flowers on long stems. An exceedingly free bloomer. 2.50 15.00

BUY WAR BONDS & STAMPS

GYPSOPHILA—Baby's Breath

Doz. 100

†BRISTOL FAIRY. 3 ft. This variety when first introduced was quite a sensational novelty and has, without doubt, proved to be the most valuable hardy garden plant in recent years. Has great panicles of pure white double flowers so indispensable for cutting. It also possesses the advantage of flowering more or less continuously throughout the entire summer months.

Varieties marked (†) recommended for Cutting

VARIOUS IRISES (continued)

Doz. 100

†DICHOTOMA. August or Vesper Iris. Though quite out of resemblance to all other Irises, it is none the less desirable. All through August the plants are, each afternoon, great bouquets of bloom. The blossoms are carried in tall sprays, slenderly branching and re-branching. Coloring is highly variable, usually a cool translucent lavender with mahogany markings that may be buff-lemon, orange, copper, brown or tyrian..... 1.50 10.00

*PUMILA CYANEA. 9 in. Violet-purple. May. 1.50 10.00

*PUMILA LUTEA A yellow form of the above. 1.50 10.00

*PUMILA THE BRIDE. A white form. 1.50 10.00

†SIBIRICA (Siberian Iris). 2 to 3 ft. A variety distinguished by its tall, grass-like foliage and numerous violet-colored flowers that are borne on slender stems. May and June. 1.50 10.00

†SIBIRICA. SNOW QUEEN. A variety of great merit. Flowers snow-white. 1.50 10.00

LIATRIS (Blazing Star)

†ELEGANS. An informally graceful, highly distinct, and delightfully pretty species. Purest lavender. Many flower-filled stems, each individual floret large and starry, with long curved stamens. 2.00 12.00

†PYCNOSTACHYA. Long straight stalks 4 ft. high with spikes 1 to 3 ft. long of rosy-purple flowers, commences to bloom at the top of spike, and blooms downward. Good for cutting. July-August. 1.50 10.00

†PYCNOSTACHYA GIGANTICA. This latest form of Liatris Pycnostachya is the best yet of all Liatris known. Its flower spikes reach to a height of 7 to 8 feet, and when in full bloom shows 30 to 36 inches of stem in bloom at one time. Excellent for border and cutting. August-September. 2.50 15.00

†SEPTEMBER GLORY. This late flowering type was selected from among a large number of fine seedlings because of its outstanding beauty. It is the showiest form of all the late varieties. The purple flowers are produced in extra long

LIATRIS—Blazing Star—(continued)

Doz. 100

spikes during late August and September. A first-class acquisition for the border and for cutting. 2.00 12.00

†SPICATA. Reddish purple. June-July. 1.50 10.00

LINUM—Flax

FLAVUM. An attractive and profusely blooming perennial suitable for border or rock garden. Grows 1 foot high and has lemon yellow flowers from June to August. Grows in sandy or ordinary light, well drained soil and prefers sun. 1.50 10.00

*FLAVUM MANUM COMPACTUM. A dwarf form of the above. 1.50 10.00

PERENNE. A beautiful border plant producing a profusion of pale blue flowers on upright stems 2 ft. high. A new crop of blooms every day. A very graceful and desirable plant. 1.50 10.00

MYOSOTIS—Forget-Me-Not

PALUSTRIS SEMPERFLORENS. Noted for its magnificent blue-colored flowers. 9 in. Light blue flowers during June. 1.50 10.00

NEPETA—Catmint

*MUSSINI. A plant especially good for the rock garden. Of dwarf, compact nature, producing masses of blooms of lavender color of all spring and intermittently during the summer. One of the most popular of rock plants, or edging plants. Does well in ordinary soil that is well drained. Prefers sunny position. Height 1 foot. 1.50 10.00

OENOTHERA—Evening Primrose

*MISSOURIENSIS. A low growing plant used chiefly for the rock garden and border. Blooms abundantly from June until August. Require a well drained, medium sandy soil and a sunny position. Has beautiful large yellow flowers. Height 6 inches. 1.50 10.00

OXALIS

Doz. 100

There is an elfin daintiness about the exquisitely formed flowers of Oxalis, and an unrestricted prodigality in their blooming that gives them an appeal over many other flowers. They bloom for months. Very valued for edgings and for the Rock Garden. Handle all Oxalis like Gladiolus, digging and storing them in late Fall.

LASIANDRRA OR FLORIBUNDA. Rather large blooms of a pleasing deep rose, so rich that it approaches crimson. In bloom from late Spring to late Fall. 18 inches.45 2.50

TETRAPHYLIA. Clustered flowers of old rose above brown-banded four leaf clover foliage. 12 in.45 2.50

PAPAVER ORIENTALE—

ORIENTAL POPPY

ORIENTALIS. The plant that gives that gorgeous display of large cup-shaped, bright orange scarlet flowers in May and June. They do well in any well drained soil in sunny position. 2.50 15.00

BEAUTY OF LIVERMORE. (Deep Cherry Red). 2.50 15.00

MAY SADLER. (Salmon Pink). ... 2.50 15.00

MRS. PERRY. (Apricot Pink). 2.50 15.00

OLYMPIA (Double Orange). 2.50 15.00

PERRY'S WHITE. (White). 2.50 15.00

WURTEMBERGIA. (Rose Red). ... 2.50 15.00

GOLD OF OPHIR. A Poppy of medium height, about 24 to 28 inches, coming to perfection when 2 year old or more. The flowers are golden orange which develop into the nearest yellow of any Oriental Poppy. This tone of golden orange becomes more pronounced as the plant grows older. A unique Oriental Poppy. 3.00 18.00

HENRY CAYEAUX. Early, deep old rose shading to burgundy. Best grown in partial shade. 3.00 18.00

PENSTEMON

†**GARNET.** We believe this new Penstemon is the finest of them all. It is a large flowering type, a prolific bloomer from June until frost. The large, rich, garnet colored flowers are gracefully

Varieties marked (*) recommended for Rock Gardens

PENTSTEMON (Continued)

Doz. 100

placed on stems 14 to 18 inches in length,
often 12 to 15 flowers appearing on one
plant. 2.00 12.00

PEROWSKIA

***ATRIPLICIFOLIA**. Silver here is
dominant, a silver that at times may be
almost a snowy downiness, or again may
hint of olive shadings, but an envelop-
ing felted silveriness always. The flowers,
and they show in midget multitudes,
would be a bright blue-lavender were
it not for a silvery haziness. A very
lovely species. Afghanistan. 2.50 15.00

PHLOX

No other plant will make as bright a
show in mid-summer. The improved va-
rieties offered today embrace a wide
range of colors to please any taste.
They make a profitable item because they
are hardy, reasonable in price, easy to
handle and can be moved at any time... 1.50 10.00

ANTONIN MERCIER. Lilac, white
eye. 1.50 10.00

B. COMTE. Rich wine red. 1.50 10.00

BLUE BOY. Blue Phlox are hard to
obtain. As a rule, in the drier climates
they show their color better in semi-
shade. This is the bluest Phlox we have
had. Very free flowering. 2.00 12.00

BORDER GEM. A distinct novelty,
dark purple. 1.50 10.00

BORDER QUEEN. Enormous heads of
pure pink flowers. Rare and beautiful.
Very dwarf. 1.50 10.00

CAROLINE VAN DER BERG.
Striking Lavender Blue. 1.50 10.00

COUNT ZEPPELIN. White brilliant
red eye. 1.50 10.00

EMAIN MACHA. Coral red. 2.00 12.00

ETHEL PRICHARD. Lavender ... 1.50 10.00

FIREBRAND. Large vermillion scar-
let. 1.50 10.00

GEORGE STIPP. Glowing Salmon.
Large flowers. 1.50 10.00

JULES SANDEAU. Large heads of
watermelon pink. 1.50 10.00

KARL FOERSTER. One of the most
brilliant orange scarlets. An improve-
ment on Deutschland. 1.50 10.00

PHLOX SUBULATA—Moss Pinks

An early spring flowering type with pretty, moss-like evergreen foliage. During April and May the plant is hidden under the mass of bloom. Very good for the rockery, edging the border or carpeting.

ALBA. Mosslike foliage, white flowers. 6 inches. April-May. 1.50 10.00

APPLEBLOSSOM. An uncommon and distinct variety whose name accurately describes the color of its flowers. 6 in... 1.50 10.00

ATROLILACINA (*Blue Hill*). Deep lilac flowers, close to blue. 1.50 10.00

Varieties marked (*) recommended for Rock Gardens

PHLOX SUBULATA (continued)

	Doz.	100
ATROPURPUREA. (<i>Brilliant</i>). Intense red flowers.	1.50	10.00
ROSEA. Pink, red eye.	1.50	10.00

OTHER PHLOXES

*CAMLAENSUS. This is reported to be a cross between Phlox Subulata Rosea and Phlox Amoena and is quite the loveliest dwarf phlox in existence to-day. The flowers are large and completely cover the plant, which grows about 8" high, in bloom in May and June. Lovely with tulips and a gem in the rock garden or as an edging plant for walks or beds. 2.50 15.00

*DIVARICATA. Large, lavender-blue flowers. May. 1.50 10.00

*SUBULATA NIVALIS SYLVESTRIS. A strong compact growing type, producing rosy red flowers of huge size in abundance. It is the most brilliant Subulata Phlox in existence to date. We are sure this plant will be very popular as soon as it is better known. We recommend that you give it a fair trial this year. 2.50 15.00

PHYSOTEGIA—False Dragon Head

VIRGINICA VIVID. Bright pink, 1½ ft. Aug.-Sept. 1.50 10.00

PINK—Hardy

HER MAJESTY. Pure white. 1.50 10.00

HOMER. Deep rose with darker center. 1.50 10.00

JULIETTE. White, laced crimson. .. 1.50 10.00

PLATYCODON—(Balloon Flower)

GRANDIFLORA. 3 ft. Showy, deep blue flowers produced all Summer. An excellent hardy plant. 1.50 10.00

PLUMBAGO (Lead Wort)

*LARPENTAE. 6-8 in. One of the finest dwarf border and rock plants. Forms masses of dark green leaves covered with intense blue flowers in late Summer and Fall. 1.50 10.00

Pot Plants 2.00 12.00

Varieties marked (†) recommended for Cutting

POLEMONIUM—Jacobs Ladder

Doz. 100

*BLUE PEARL. (New). Has finely cut, deep green foliage and showy spikes of baby-blue flowers in April and May. Sun or shady places. 9 inches. 2.50 15.00

*REPTANS. Graceful foliage and showy blue flowers. Should be planted in shady places. 8 in. April-May. 2.00 12.00

PYRETHRUM—(Painted Daisies)

*MIXED HYBRIDS. 2 ft. Our general mixture is grown from seed of selected plants. The flowers are produced on long stems during May and mostly in shades of pink and red. 1.50 10.00

RUDBEKIA

†THE KING. A tall improved Rudbeckia Purpurea with broad deep crimson red petals and rich coppery bronzy cones. The petals never fold or droop. Always attractive and fine for cutting. 3-3½ ft. July-August. 2.50 15.00

SANTOLINA—(Lavender Cotton)

INCANA. Dwarf evergreen with grey green foliage useful as rock garden or border plants. 1.50 10.00

SAPONARIA—Soapwort

*OCYMOIDES SPLENDENS. An easily grown plant, suitable for the rock garden and margins of sunny borders. Plants are compact, yet trailing, forming the shape of a mound. Flowers are rosy pink, produced in great quantities just above the foliage in late May and June. Does well in most any good soil... 1.50 10.00

SCABIOSA—(Pin-Cushion Flower)

FISHERI. Rich, deep violet blue, blooms all summer, excellent plant for border and cutting. 1.50 10.00

SPIREA

VENUSTA. (LOBATA). Commonly called Martha Washington Plume, also King's Plume. A Noble plant growing about four feet high, producing in July and August handsome rosy carmine flowers which are delightfully fragrant. A desirable plant for the border or along a small brook. 2.50 15.00

Varieties marked (*) recommended for Rock Gardens

STOKESIA

Doz. 100

†CYANEA. Very large, azure blue flowers on strong stems. 1½ ft. August to October. 1.50 10.00

SWEET WILLIAM—*Dianthus barbatus*

†HOLBORN GLORY. Giant-flowering varieties in finest assortment of colors. 1.50 10.00

†NEWPORT PINK. A lovely salmon or Watermelon pink variety of exceptional beauty. 1.50 10.00

†SCARLET BEAUTY. Highly valued for its rich crop scarlet blooms. 1.50 10.00

TALINIUM

*CALYCINUM (Cherry Sunbright). A hardy perennial succulent, with root tubers, which when in bloom are a compendium of delight. Try it in any hot dry place, full sun always, for an all-summer display of color brilliance. The blossoms, of luminous cherry-rose, are in airy sprays on stems so fine as to be near-invisible. Attractive foliage, succulent and brittle. 1.25 8.00

TRADESCANTIA

Everblooming perennials of great beauty and easiest possible culture, fully winter-hardy, tolerant alike of wet soil and dry, of sun out of not-too-heavy shade. They are spendthrifts of bloom, blossoms that last but a day, but produce prodigally day after day, even month after month.

IRIS PRICHARD. White, soft azure satin. 2.00 12.00

JAMES C. WEGUELIN. New, beautiful variety, free-flowering, with porcelain-blue flowers from June until September. A worth-while plant which does well anywhere. Foliage decorative. 2.00 12.00

THERMOPSIS

†CAROLINIANA. Suitable for the sunny border. A lovely lupine-like plant with rich green foliage, growing about 2 ft. Flowers are produced on spikes 6 to 12 inches long, which appear like a yellow lupine. They grow well in any well drained soil. 1.50 10.00

Varieties marked (†) recommended for Cutting

THYMUS

Doz. 100

***LANUGINOSUS**. Plants form a solid mat of wooly leaves covered in June-July with pink flowers. 1.50 10.00

TRITOMA—Red Hot Poker

†**PFITZERI**. A fine plant for the border and cutting. Flowers are of a rich scarlet color, borne on tall spikes, blooming in late summer to October. 1.50 10.00

VERONICA

†**BLUE SPIRES**. Far superior to the well known *Spicata* Growing two feet high, its lovely deep blue spikes show up well in the hardy border. The foliage is clean and plant is of bushy, upright habit and flowers throughout the early summer. A fine new introduction of real merit, and a plant which does withstand hot and dry weather without suffering. Altogether a very worthwhile border plant. 2.50 15.00

***INCANA**. A gem for the rockery or low border, with its unusual contrast between foliage and flowers. Has narrow silver leaves in neat tufts, from which arise dainty spikes of violet-blue flowers. Very good for edging garden paths..... 1.50 10.00

***INCANA ROSEA**. Silvery foliage and showy Pink flowers during July and August, 1 ft. 1.50 10.00

LONGIFOLIA SUBSESSILIS. 2 ft. Spikes of exquisite blue flowers. July-Sept. 2.50 15.00

***ROYAL BLUE**. 10 inches. Gentian blue flowers. 1.50 10.00

***RUPESTRIS**. 4 inches. Dark green foliage, small spikes of blue flowers. May-June. 1.50 10.00

SPICATA NANA. A dwarf form of the well known *Veronica Spicata*, 6 inches in height. Its beautiful blue flowers are an addition to the rock garden in June and July. 2.00 12.00

***SPICATA ALBA NANA**. A most pleasing form of *Veronica spicata alba*, growing only 8" high. Its pure white flowers are nicely offset by its dark green foliage. Good for edging and the rock garden. June-July. 2.00 12.00

***TREHANE**. One of the choicest *Veronicas*. The foliage is golden yellow, very striking. Blue flowers. 6 inches. May-June 1.50 10.00

Varieties marked (*) recommended for Rock Gardens

VINCA (Periwinkle)

Doz. 100

MINOR BOWLES VARIETY. A very great improvement over the well known Vinca Minor. 1.50 10.00

VIOLA

***JERSEY GEM.** The best viola for American conditions, producing in Spring and again in Fall masses of rich violet blue flower. 2.00 12.00

***PEDATA.** (Birds Foot Violet). Finely divided leaves and dark blue flowers. 4 inches. April-June. 1.50 10.00

***PEDATA BICOLOR.** Same as above, but dark blue lilac flowers. 1.50 10.00

VIOLET

***DOUBLE RUSSIAN.** This is not suited for forcing under glass but is perfectly hardy and a gem for the garden or hardy border, producing, in early Spring, great masses of fine, large, double, deep purple flowers of exquisite fragrance. 2.00 12.00

***ROSINA.** Novelty. Exquisite, fragrant, rich, rosy pink flowers. It is entirely different from any other Violet. 2.00 12.00
